PROFILE

I am a highly motivated individual with a strong background in SQL and web technologies, including proficiency in HTML, CSS, JavaScript. I am eager to embrace new challenges and apply my skills to real-world opportunities, ensuring positive outcomes for the team and organization.

EDUCATION

BCA, Mysore University

10/2021 – 06/2024 | Hassan, India

- During my time at My College, I gained in-depth knowledge of various programming languages, thanks to the well-structured curriculum and the expertise of the faculty.
- I had the opportunity to work on real-world projects that enhanced my coding skills and problem-solving abilities. The practical labs, assignments, and workshops were designed to ensure that we not only learned the theoretical aspects of programming but also developed practical skills that were highly relevant in the tech industry.
- Throughout my time at my College, I took the initiative to work on several independent projects, which greatly enhanced my programming skills and deepened my understanding of various technologies. I created my own projects

SKILLS

SQL

- **Table Creation:** Proficient in designing and creating normalized databases, including tables with primary keys, foreign keys, constraints, and relationships.
- **SQL Joins:** Expertise in using INNER, LEFT, RIGHT, and FULL joins to combine data from multiple tables for complex queries.
- **Joins:** Proficient in using different types of joins (INNER, LEFT, RIGHT, FULL) to retrieve data from multiple related tables.

HTML CSS & JAVASCRIPT

- I have built a solid foundation in front-end development with a strong command of HTML, CSS, and JavaScript.
- Over time, I've applied my skills to create several real-world projects, including recreating popular platforms like Netflix, Amazon, Flipkart, Rapido, Miniso, and Starbucks. These projects have helped me not only strengthen my understanding of web technologies but also enhance my ability to build responsive, user-friendly interfaces and incorporate dynamic functionality.

CERTIFICATES

Commerce Examination

I completed a two-year stenography course alongside my college studies, which focused on both English and Kannada. This course is particularly valuable for court-related work, as it teaches the skills necessary for transcription and documentation in legal settings. I am proud to have earned a First Class in both English and Kannada, reflecting my dedication and proficiency in these subjects.

PROJECTS

Linkedin

- **Project Description:** Developed a web application using html, css.
- The purpose of the project entitled as “ Lenskart ” is to computerize the Front Office Management of Lenskart App.
- The main function of this app is to select the lenses and glasses by our own

Health Centre Management System:

- **Project Description:** Developed a web application using HTML, CSS, JavaScript..
- The purpose of the project entitled as “Health Centre Management System” is to computerize the Front Office Management of Hospital to develop software which is user friendly simple, fast, and cost-effective. The main function of the system is register and store patient details and doctor details and retrieve these details as and when required, and also to manipulate these details as and when required, and also to manipulate these details meaningfully.
- **Technology Used:**
 - o Operating System : Windows 11
 - o Language : HTML, PHP, JavaScript
 - o Data Base : MySQL
 - o Server : Apache Tomcat

COURSES

SQL, J Spiders

Bengaluru, India

- As part of my course, I learned SQL, focusing on key concepts such as table creation, joins, and subqueries. This knowledge enabled me to efficiently manage databases, retrieve and manipulate data, and perform complex queries, which are essential skills in database management and backend development.
- I also have a strong understanding of data normalization, which involves organizing database structures to reduce redundancy and improve data integrity.

Mern Stack, J Spiders

Bengaluru, India

- In my institution, I also learned HTML, CSS, and JavaScript, which allowed me to design and develop web pages.
- Through hands-on practice and projects, I gained a solid understanding of front-end development and web design principles, enabling me to create visually appealing and functional websites.
